# Bah-Humbug Bingo

November 29, 2012  
Campion Ballroom

## Defintions

- Human Immunodeficiency Virus (HIV) hinders the immune system.
- Acquired Immune Deficiency Syndrome (AIDS) is the advanced stage of HIV.

## The Numbers

- 33,000 AIDS diagnoses in 2010.  
47,000 HIV diagnoses in 2010.
- 1.2 million Americans have HIV.
- 1/5 of them don't know.

## Ways to get involved:

- Volunteer or intern at Lifelong AIDS Alliance.  
Visit their website: [laa.org](http://laa.org)
- Volunteer at Rosehedge/ Multifaith Works, who provide patient and family support.
- Organize your own event to raise funds for a specific organization or to promote awareness.
- Contact PHAT or the Center for Service and Community Engagement to learn more!

## Did you know?

- HIV can be contracted through the sharing of bodily fluids (blood, semen, breast milk).
- HIV cannot be contracted from shaking hands, hugging, toilet seats, or eating utensils.

## The Best Prevention

Abstinence

Condoms

Safe Needle Use,  
and Preventative Pills for Mothers
